OBJECTIVE SECTION

owner says dog is not doing well for the past 2 weeks
no vomiting or diarrhea seen by the owner
Rocky had been sick for 2 weeks. O said they went to a petshop where they saw a woman who gave rocky an underdose of doxy, a brown powder (possibly liver essential?) and a thick red liquid to mix with his water. There were no drugs labels or instructions
Rocky from then got worse and was brought to the hospital

quiet and unresponsive
nad on the abdomen palpation
dog is yellow the whole body
