

To the SPCA

Ref Notification 18239

To whom it may concern

As per the attached notification

Point 4 as per the notification "Adequate Veterinary Treatment"

I personally am a qualified Veterinary Assistant, I have Been in the Employ of Cart Horse Protection for a period of Years as A Chief Inspector.

As per the notification , it is agreed that the horse is in a poor shape ,

I did explain to the SPCA inspector that I had just recovered or , rather was in the process of recovering the horse as it had been stolen and it was been abused by the parties who had stolen the horse.

It must be noted, that my life and the life of the horse was in danger when I recovered the horse.

The parties who were abusing the horse and had been party to it been stolen were threatening me and the horse by been abusive ,aggravated and began stoning me and the horse ,

Hence the necessity to remove the animal and myself out of the area as soon as possible

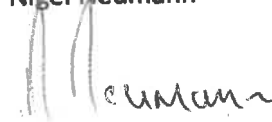

It Must be noted that for the last 3 days the horse has been seen by different people and they all noted that the horse had been ridden in an appropriate way and just generally being abused.

As for Treatment , I am quite capable of treating my own animals as per point no 1 above

Yours

Faithfully

Nigel Neumann
