General Comment:

The reported test result/s relate only to the specific sample/s submitted and the status of the bird / animal at the time that the sample was collected and as received by the laboratory. The information in the columns marked with an asterisk(*) is provided by the customer. These results were generated by MDS using nucleic acid amplification procedure. Each test done by MDS is internally controlled to validate the testing process and the collected sample.

Disclaimer:

In the event that Molecular Diagnostic Services (Pty) Ltd (MDS) returns a verifiable erroneous result for a particular sample, or if negligence is proven on the part of MDS, any claim against MDS is limited to the amount paid or to be paid to perform the test in question. In no event shall MDS be liable for direct, indirect, incidental, consequential, special or other damages of any nature even if MDS has been advised of the possibility of such damage. Should any details on this form be incorrect then they must be brought to the attention of MDS. Any alteration or modification of the information on this form is not authorised and legal action will be taken against any person found guilty of such action. We realize the importance of confidentiality in the service we provide and undertake to abide by our Privacy Policy. For further information about our Privacy Policy, please contact our office or visit our website www.mdsafrica.net.
