Photos taken: Yes Warning Issued: No Warning Number: _____

Comments and action taken by Inspector:

I only observed one box of chick that is destined for Gauteng. The animals arrived at about 11:44 and they will depart at 15:15.

I asked about the water and they informed me that they can't put water in those boxes as the water usually spills and wets the box. The chickens did have water prior to being placed in that box and will receive water as soon as they are removed.
