Explained to owner that it might be SCC due to the way it appears and that we can biopsy and send to the lab or
 other option is to PTS. Explained that it will only get worse than this.

Cost est for biopsy and histopathology

Owner says that she needs to speak to her son 1st and discuss with him. If they decide for Biopsy they will call in
 and let us know. Or they will PTS

Booked out eye drops , clavet and anti-inflammatories for a week as they are still deciding

History

O says they think cat might have been in a cat fight about a month ago
Took the cat to the SPCA about a week ago, was advised to euthanase as the cat has what looks like a cancer on the eye. O upset as he feels like they should have done tests before assuming such. Wants to have eye checked out
