Re: Jack, 24 yr old Grey, American Saddler @ Milnerton Riding School

I examined the above horse today and found him to be in good health, body condition and soundness.

Despite his rather prominent sway back, there is no pain or discomfort on palpation thereof. His workload is limited to low impact exercise using only light children and the use of a specialised, light weight saddle.

As the veterinarian for both the stables and this horse, I have no concerns over his welfare at this stage. All vaccinations are up to date as well as deworming and dental care.

Should you have any further questions or concerns, please don't hesitate to contact me directly.

Kind regards

Dr Lauren Brewis
