

VETERINARY REPORT

To whom it may concern

On Thursday, 22 December 2022, Inspector Arendolf brought a dog (No 87541) to the Cape of Good Hope SPCA.

ANIMAL DETAILS

Species: Canine
Breed: X breed
Sex: Female
Description: Cream

EXAMINATION FINDINGS

The nails of all four limbs are overgrown by about 1 cm.
The dog is otherwise in a very healthy condition and no abnormalities is found.

COMMENTS

The dog is well looked after. The overgrown nails are likely due to the dog not walking on rough walking surfaces and most likely tiles/ carpets. It is negligence from the owner's side if nails are not often cut. In this case the patient could have endured soft tissue trauma if the nails had overgrown to such an extend to penetrate the surrounding tissue.

Yours sincerely

Dr Fraser Martens (BVSc)
