To whom it may concern:

RE:

Lady B

Feline DSH

DOB: 2015

First saw her on 13.01.2023. Performed a Dental where 10 teeth were extracted.

Gave Clavet 50mg x 10 Tablets.

Follow up consult was done 10/03/2023. Mouth looks much better and clinical is NAD

No further treatment needed.

RE:

Oya

Feline DSH

DOB: 2016

First saw her on 13.01.2023. Performed a Dental and did a full mouth extraction.

Gave Clavet 50mg x 20 Tablets.

Follow up consult was done 10/03/2023. Right side of mouth looks much better , keep a eye on the left side.

No further treatment needed.

RE:
Neo
Feline DSH
DOB: 2017

First saw him on 11.01.2023.
Tested for FIV/FelV which was negative. Blood smear –NAD

No treatment given

Follow up consult was done 10/03/2023.
Clinical NAD
No treatment needed

RE:
Ivery
Feline DSH
DOB

Ivery came in on 13/02/2023 for a consultation.

She has chronic bilateral nasal discharge, mucopurulent, will be a chronic problem that needs to be maintained NOT cured.
Cat is otherwise healthy.

Follow up consult was done 10/03/2023

Much the same, gave 10 days of cortisone trial treatment.

Kind regards
Dr S Robinson
