In light of the inspection that was conducted at your facility on 23 March 2023, **you are hereby warned that:**

1. Dead fish must be removed from the tanks on a regular basis. During the inspection, at least 5 dead fish were observed. Any sick or injured fish must be treated without any delay or they must be humanely euthanased to prevent any unnecessary suffering.
 - a. Two Cichlid fish were found dead in the tank. We were advised that the reason for this was a competition between male cichlids and patterns of domination.
