Comments by Inspector:

Upon inspection

~~Chickens were observed about 65 chickens. Some chickens were exposed to elements as there was no shelter provided for the chickens. The chickens didn't have water the owners provided water on our inspection.~~
~~Chickens were overcrowded in some cages and we also advised the owner to fix the cage as wire were sticking out that could cause injuries to chickens. The owners were using ropes to tether chicken legs when they are being sold. The owners were educated to use plastic bags when selling chickens. Ropes were seized immediately. Chickens were kept in a parasitic conditions.~~

Warning issued #12096
