Plan

Dr. Joy Bhandi

suspected soft tissue injury-maybe stepped onto something
 Advised petcam OID @ 25kg dose for 3 days, advised rest for 3 days and can then start to work again
 monitor paw pads as seems softer and probably more prone to injuries

Assessments

Dr. Joy Bhandi

limping

09:38AM

Physical Exam

Dr. Joy Bhandi

BAR
 TPR wnr
 no lameness noted, patient walked into consult
 FL paw pad relatively softer comparative to HL paw pad, no obvious pain on palpation, extension and flexion of joints
 rectal-NAD
