Comments: I would like this case to be given to the other inspector, the reason why, I was at the property last year and Issued a warning to take the dogs to the vet , the owner did take the dogs to SPCA and the dogs were examined by Rivona, who said to the owner the dogs are in a acceptable condition except for the fleas. Now this owner, is always saying our vet said the dogs are in fine. Whereas to me they appears to be not good.
