Time: 21:07
Inspector: SIYABONGA MBUKUTSHE

Type: EMAIL - RECEIVED
Follow-Up Date: 2023-03-24
Comments: Good evening

Please advise if you are able to assist in resolving the issue at 124 4th Avenue Grassy Park.

I needed to work in my yard this afternoon and the stench from the build up of the dogs' faeces in my neighbour's yard is so bad that my chest started burning and I'm still struggling up until now, almost 3 hours later. Some days when it's too hot to wear a mask while I'm hanging the washing, I also suffer with my chest because of this terrible stench.

Also, while I was busy in the yard today and standing on the ladder, I was able to see the one dog, he looks under nourished as his ribs are visible and it would appear that he has a rash on the one side of his face.

This is a health hazard and totally unacceptable! If you are unable to assist, please let me know so that I can escalate this matter to the appropriate authorities.

Thank you

Regards
Cedrick
