AS PER EMAIL:

Good day inspector

I have emailed before concerning dogs at 35 Oasis street Riverton. inspectors followed up and all went well.

As I have been there often to drop of food and dewormer, I notice the pitbull Naartjie always has wounds. They say he breaks free and other dogs attack him. In December I finally found people willing to donate and put up fencing and a side gate so that Naartjie can be taken off his chain . Last week he wasn't there when I did a spot check to make sure the gate stays closed. The following day he was there with bite wounds to his face.

I'm convinced that they are fighting this dog. I would appreciate if someone could check on a Monday or Tuesday as it might occur over a weekend.

The other dog, Roxy, has a paw that has been injured a long time and they don't take her in for treatment. I attach pictures I took of her on Halt Road this morning.

Please keep me updated if possible.
