Bellville South neglect

INSP174667 - Syrex (chained)

This address has been reported before but new neglect/dogs have come up; Sheba and Lassie are the two original dogs on this property but only Sheba remains as Lassie was stolen. I spent a lot of time with these dogs (one mom who has obviously been chained for a lot of her life as her hind legs are malformed like Toska next door and 8 puppies in kennel, black male, small black female and brindle Pitbull) this weekend and can tell you that Syrex (black male) spent the whole weekend chained to wooden slats out in the open, including last night and wouldn't have been given water if I hadn't made sure it was put down. As mentioned, he was chained the whole weekend and I hope he still is so the matter can be addressed. Last time you were here, neglect of water was addressed but they haven't been doing water at all recently so if you could please check for water too.

Thanks,
Jessica Robertson
