Comments:	I called elne when was on route to the property as I told her that I need to do a follow up Inspection on the horses again. She then informed me that unfortunately there is no one at the property today as the as they are out in wellington. I informed her that I was supposed to follow-up on the horses but she said that unfortunately I did not make an appointment. I informed her that if the horse in question with the eye POPPIE has not improved they need to seek vetinary attention for the horse. She informed me that the horse has its owner and I should deal with her. I asked the owners details and was informed that Alta has that information regarding the owner of the horse. I also added that we will also require a veterinarian report of not older than 3 months for GLORY. She then said that we have a veterinarian report but I told her that unfortunately the one we have is from last year and in my opinion we require a new one as the horse is old. She informed me that I will have to speak to ALTA regarding this matter as the horses are on the property. I will follow-up on Tuesday regarding the new complaint and address possible seeking vetinary attention for poppie and a report from a veterinarian for glory as I saw his picture from the complainant.
