 7941

Patient Details

Name A07480 Lee **Age** Not Set
Species Canine (Dog) **Sex** Female
Breed Pitbull

Friday the 5th of January 2024

Plan

Dr. Travis Gray

At tis moment, patient doesn't seem to be in pain
 However, an abdominal hernia with herniation of intestines has a high risk of herniation which will cause pain and eventual death to the patient
 In order to live a quality life, the hernia will need to be repaired surgically. Surgery generally has a favorable prognosis
 If surgery not possible to to financial reasons then PTS must be considered

Assessments

Dr. Travis Gray

Abdominal hernia

Physical Exam

Dr. Travis Gray

Mentation: BAR, friendly

Thoracic auscultation: NAD

Abdominal palpation: Course, sandy material felt in colon

Lymph nodes: NAD
