Comments, if any:

Upon arrival I met owner who gave me access to property as I shared received concerns. I then observed the dog in question who appears to have a penis prolaps. I told her that she will have to take the dog to the vet within 16hours and she told me she is unable to do so. I then convinced her to sign the dog over, but she told me since the dog also belongs to her partner they will have a chat and rather surrender the dog.

I then issued a NTC for the owner: In future as the owner of an animal; when that animal is in need of veterinary treatment ensure to provide it without any delay as denying your animal veterinary treatment is a contravention of the Animals Protection Act no.71 of 1962.
