Yes

Animal/s in good condition:

No ***

Veterinary problems / health concerns:

Yes ***

Comments, if any:

On my arrival, I met with a woman who introduced herself as the mother of Khaya, she wanted to know, what was the problem, I have explained to her that, the concern is about the puppies that are being docket and that is against the law.

She wanted to know, what will happen after I have removed the dogs, I told her that they will be adopted, she said, she doesn't understand me, as the puppies were already docked, she further told me that, if I want to take the dogs, I must proceed into the property and take the dogs.

I requested them to assist me, she instructed everyone who was there not to help me, I requested her to fill the admission forms, she refused to do so, she also made it clear that, she will never give the details of the person who is responsible of cutting the tools, she mentioned that, I can open a case, if I like doing so.

I tried to speak with Khaya, who told me that, he is following his mother rules, there nothing much he can do about the situation.

As I was unable to take dogs without the paper work being signed, I decided to leave the property.

I have called Rudy to explain the situation, we have agreed to obtain the warrant and remove the dogs.

ACTION TAKEN :

☒ No action required
