Comments, if any:

Upon follow up accompanied by officer abrahams and we were in possession of a warrant, we met with owners

mother and informed her of our visit regarding the inspection and she allowed me inside the property to conduct an inspection. I observed the dog in question free roaming at the back area with access to drinkable water and living environment was seen clean as well but the dog was full of ticks on face,chest and under the arms as well.

I informed the owners mother that they had failed to comply with the warnings on the given time frame and only cleaned the property after 2 weeks of getting warnings from us which we will be removing the dog and if owner comes to claim we need to issue him with a fine as they've prolonged suffering by keeping the dog in dirty living conditions
