On my arrival I met with the owner of the dog, who allowed me onto the property, I have observed the dog that appeared to be slightly gained weight, the owner told me that, he took the dog to PDSA Lentegeur where he was told to make an appointment or a booking for his dog

I don't believe him, as a result the dog was still covered by fleas and still has flystrikes on the ears.

there was no water and the living environment was not clean, there were still wooden planks around the dog.

The second warning was issued as follows.

1. To provide the dog with drinkable water at all times.
2. To take the dog to the vet within 48 hours.
3. To clean the living environment also within 48 hours
