FINDINGS

Confinement of animal/s: Static chain - inadequate length ***
Reason for being chained or caged: The house and fence is being renovated
Adequate space: Yes
Clean living environment: No ***
Water available: Yes
Adequate shelter available: Yes
Animal/s in good condition: Yes
Veterinary problems / health concerns: No

Upon arrival I met with Stephen. I introduced myself and stated my reason for being there. He told me that the dog that is on the property does not belong to him. He is just looking after the property whilst the renovations are being done. According to him all the other dogs were taken by Animal rescue.

He took me to the back yard where the dog is. A tan and white female pitbull on 1.5m chain was observed. It is in good condition with access to adequate shelter and water. The living environment was full of rubble. Stephen said he was going to clean the living environment same day and was expecting a collar and longer chain from Animal rescue by tomorrow.

I issued a warning for the following:

1. To hygienically clean the Living environment within 24hrs.
2. To install a running chain as per the pamphlet given to him within 7days.
