Comments, if any:

Upon arrival I met owner who gave me access onto property as I shared received 3. I observed the dog in question who appears to be unwell. She is extremely under weight and weak as she just falls over. Owner told me she wants to surrender the dog. Admission no 48564. No donation given. I then observed the two remaining dogs who appears to be in fair condition and alert with body scores of 2.5-3/5. They have access to adequate water, shelter as they sleep inside the house and a clean living environment.

I then issued a NTC for the owner: In future as the owner of an animal ensure when that animal is in need of veterinary treatment ensure to provide that without any delay.
I offered sterilization and owner is interested.

To follow-up.
