General Report Comments: Upon arrival I hooted and shouted at the property, but received no response. U then contacted owner and informed him that his sister inlaw is not home. I then went to the back side of the property where I observed the dogs in question. They all appeared to be in fair condition and alert with body scores of 3/5. I told him about the two broken kennels that I saw and the the one proper kennel seen is not enough. He then told me that during winter he opens the shack to the left side which is plus minus 3meters by 2meters with 2meter in length for the dogs to sleep inside as there is also blankets inside. I then asked him to open it tonight when he gets home and to leave it open from now onwards and never close it again. He then agreed.

To do follow up.
