VETERINARY PROBLEMS / HEALTH CO	Yes ***	The one dog has been clyskan for a check up and got vaccinat
CONFINEMENT OF ANIMALS	Free roaming - in property	

General Report Comments: Upon arrival I met owner's sister who gave me access onto property. She told me that both dog's has been taken to the vet, but only the one was seen. I observed the two dogs in question. Max app to have picked up alot of weight, but is not yet at desired weight with a body score of 2.5/5. The puppy has a body score of 2.5/5. Both dogs have access to adequate water, shelter and a clean living environment. I saw that the dog's have adult food and advised a puppy should be on puppy food not adult.

I then issued a NTC for the owner: In future when being the owner of an animal ensure when that animal needs veterinary treatment to provide it without any delay as denying your animal/s veterinary treatment is a contravention of the Animals Protection Act no.71 of 1962.
2) Provide your dogs sufficient dog food puppy is recommended as the one dog is still a puppy and the other still under weight within 5days.
