Comments, if any:

Upon arrival I met owner who gave me access to property. I observed the dog in question who was moved back to the place where is initially gers tied up. He was still tied up to a 1meter rope. He had access to adequate water. He

had access to shelter, but it is not adequate as he uses the car to sleep under. His living enviroment fairly clean. He appears to be in fair condition and alert with a body score of 3//. I did not see the puppy.

- I then issued a Final NTC for the owner: Place your dog Clyde on an adequate running chain as shown on given pamphlet.
- 2) Ensure that your dog always has access to adequate drinking water and shelter (his kennel) while being tied upon the advised running chain.
 - 3) You have 7days to do so.

Kindly allocate to a qualified inspector.
