Comments, if any:

Upon arrival at the property I met with Stephen davids owners nephew and addressed the welfare concerns recieved regarding the dog on the property,he allowed to conduct an inspection.

I observed a breed black/white male dog that appeared to be old as his back legs was starting to wobble when walking. The dog was also seen with ticks and there was a tumor on its abdomen area however when you touch it does not appear to be causing any discomfort to the dog. The dog had access to drinkable water but dirty and shelter available.

I issued a warning stating that the owner of the dog in question should within 24hours seek veterinary attention for the dog without any delays or surrender the dog over to the spca for humane destruction
