General Report Comments: Upon inspection, i met with Stephen. The puppy was free roaming on the property. She had access to water and a clean living environment. A bed was seen inside the house. She also have access to adequate shelter when she is outside in the form of a plastic kennel that is placed under the varanda area. Stephen told me that he got the puppy about 2 weeks ago. He told me that she is moaning when she is outside but she has to get use to it as they don't always work from home and and normally she will be outside for about and hour or 2.the puppy appeared in good health and condition.
