Pistons appears to have a stab wound next to his right eye and  
Both Pistons and Dank needs adequate veterinary treatment for

General Report Comments: Upon arrival Inspector Rowan Davids, myself and Trainee Inspector Tariq Albertyn met the owner who gave us access onto property as we shared received concerns. The owner denied that his dogs ever attacked any cats, but did mention that he wants to raise the fence as it is very low at the front and on the one side of the property.

We observed the first dog Called Pistons who appeared to have a stab wound next to his right eye which the owner said they are not sure when this happened as they only saw it yesterday morning (03/12/2024). PISTONS has a body score of 3/5. We then observed the dog called Danko who appeared to have a skin condition and ticks in her ears. Her body score is 2/5. While walk to the back of the property we observed the water bowls that were not filled with any water. This situation was immediately addressed and corrected.

At the back of the property we observed the mommy dog called Engine who appeared to be slightly under weight due to feeding six puppies. HER body score is 2.5/5. We then also observed the six puppies who appears to be in fair condition with body scores of 3/5. The dogs has access to adequate shelter as a clean living environment. We asked to see the dog food they feed as more than one dog was under weight and was told they feed the dog's house food. We then advised to rather feed adequate dog food.

We then told owner he must take the two dogs called Pistons and Danko to the veterinarian or that he has the option to surrender them should he not be able to procure veterinary treatment. He then decided to surrender the two dogs called Pistons and Danko and three puppies. Admission numbers: A51957; A51958; A51959; A51960; A51961. No donation given.

A warning was issued: It was observed two of your dogs appeared to have veterinary concerns. No water was observed and it was brought to our attention that one (1) of your dogs allegedly escaped the property and allegedly attacked a cat.

1) In future should any of your animals be sick; injured or compromised seek veterinary treatment without any delay.

2) To provide potable water 24 hours daily and adequate dog food as well.

3) It is your responsibility as owner to ensure that your animals are kept safe on your property at all times.

4) Your mother dog named Engine appears to be slightly under weight.
