General Report Comments: On my arrival, I have knocked from the small gate, while I was knocking a little girl and an adult woman opened the curtain and looked at me through the window that was slightly opened

, I have introduced myself and I told them that, I would like to do an inspection, the Adult woman closed the window, I waited more more that 10 minutes, no one came out to open for me, I had to knock again, this time no one showed up.

While I was knocking, I have observed the male Boerboel that was chained up next to the garage door, the dog appeared to be in a fair condition, however I didn't see water, the food and the shelter.

Based on what I have observed the warning was issued as follows.

1. The dog must always have access into the shelter, and if the shelter is not provided therefore the owner need to buy or build a proper shelter within 7 days.
2. The property appeared to be fully fenced, therefore the dog has been chained up unnecessarily, the dog need to roam freely inside the property immediately.
3. To contact the SPCA within 24 hours to any query.
The warning was attached on the small gate.
