General Report Comments: Upon my arrival, I saw that the dogs had not been groomed and that their ribs were more visible than before. I began walking around the property to see if a new water source had been placed inside. Whilst walking, I found that there were people inside. I called out, and they came to let me in. I was met by Rueben's mother and sister. They took me to the water, and they said Rueben did deworm the dogs but lost my number. I explained that the dogs were in worse condition and that he'd have to take them to the vet as well as groom them. I issued warning 18319 instructing Rueben to feed the dogs adequate food on a daily basis, to take the dogs to the vet within 48 hours and to groom the dogs within 48 hours as well as to send proof thereof to Control's WA. Rueben's sister, Mikaela Pillay, signed the Warning on his behalf.
