General Report Comments: I arranged dewormers and dog food, and upon my arrival, I tried calling Christell many times, but my calls went unanswered. Eventually, Christell came outside and granted me access. I observed 2 underweight dogs with visible ribs. Christell took me inside and showed me the 2 bags of 7kg Bobtail dog food she bought and the food she had made for them with chicken and mince. She said that she has been feeding them twice a day, at 08:00 in the morning and at 18:00 in the evening. She noticed that they had picked up in condition. I provided Christell a 20kg bag of food and 2 large tins of dog food. I also provided her with a deforming tablet for each dog. One shelter is broken, but the other is adequate and is dry inside. I issued Warning 18324 to Christell instructing her to provide her dogs with adequate food daily, to clean the dogs' living area (including picking faeces up daily) within 72 hours, and WA proof to control. If she sends the proof to Control, then a follow-up can be conducted in 2 weeks' time.
