Confinement of animal/s:

Free roaming - in property

Adequate space:

Yes

Clean living environment:

No \*\*\*

Water available:

Yes

Adequate shelter available:

Yes

Animal/s in good condition:

Yes

Veterinary problems / health concerns:

No

**Comments, if any:**

Upon follow-up I met with owners younger brother by the name of mikyle Williams and informed him of my visit regarding the animals on the property. He allowed me inside the property to conduct an inspection on the animals, the owner was not home Upon inspection.

The dog was taken to the veterinarian as per owners brother and he gave me proof I form of a AACL mobile receipt but didn't know where the meds were. The dog was free-roaming inside the property with access to shelter and

drinkable water.

We went to the area where the GSD was kept and was informed that the area cleaned but the dog made it dirty again. The dog appeared to be exhibiting stereotypical behavior in the environment it's kept as it was running in circles and chasing its tail, the dog is in fair condition however living conditions are dirty and not advisable. The younger brother informed me that after I took the other dog they did try to let the GSD free roam with the other dog but they almost fought.

I left a warning stating that the owner should within 48 hours (1) clean living environment of the GSD (2) provides drinkable water at all times (3) provide the dog with an area that will afford sufficient space for it to exhibit behavior

**ACTION TAKEN** :

☒ Warning issued

Number: 21454

**OUTCOME / FOLLOW-UP** :

☒ Follow-up inspection to be conducted

Follow-up inspection date / period: **December 11, 2024**
