Subject: Re: Animal Cruelty - Edgemead

Update;

I have spoken to various neighbours in the area. They have confirmed that he puts tuna fish in his trap to lure the cats in.

In the animal protection act, under section 2, in clause (j) and (k) it states that it is against the law to play any trap or device for the purpose of capturing or destroying any animal.

I urgently ask you to handle matters effectively and immediately . We have had numerous cats in our neighbourhood go missing.

If no action will take place, the Edgemead neighbourhood group will protest against this man and against the SPCA for allowing such unlawful acts to take place in our pet friendly neighbourhood .

There are humane ways to repel a cat from entering your property, such as water sprinklers, cat repellent spray and more.

Do better SPCA.

Look forward to your immediate response.

Kind regards,
Daniella
