Type:	CASE DISCUSSION NOTE
Follow-Up Date:	2024-12-06
Comments:	03 December 2024: The owner, Sibusiso, came to the SPCA and claimed his animal. He only had permits from DFFE but none from Cape Nature, The City of Cape Town or a PAPA license. The date stamp on the DFFE permit was 29 November 2024, a day after the snake was seized. The owner also showed us his application for a permit submitted to Cape Nature on 02 december 2024. All documentation is attached to the case. 04 December 2024: The Boa Constrictor was taken to an exotic vet. The vet advised that the snake is in a poor condition and wanted to keep the snake overnight to ensure he got the proper care. This was agreed upon by the SPCA. 05 December 2024: We have to discuss the matter with Emma and Shiven either later today or tomorrow as per the way forward with the case.
