Please describe the concern you have

Our neighbours have been on holiday since 13 Dec 2024 and will inky return on 5 Jan 2025. They have left their dog alone at home, outside all day with no one checking in and not even a light left on outside for the evenings. The last time I saw someone coming to give the dog water/food was Monday 23 Dec when their domestic lady came in for about 2-3 hours (she left before lunch). Last weekend no one was over to look at the dog or to give water or food. It is the sweetest dog, but she is extremely lonely and sad, she has started howling/crying during the day and at night. She is all alone as the male dog passed away recently (in the last month) , but this is something that the neighbours do often when they go away on weekends, this is not a one time thing, but this is the longest that they have left their dog alone. Please help. It is a border collie dog and they are not treating her right. I have recordings of the howing, but Im not able to upload them.
