Subject: CRUELTY TO A DOG

Hallo,

I live in Zarina Burgundy Estate, Milnerton.

Not long ago, the SPCA visited a house across the street 108 Zarina. The two SPCA persons talk with the one guy that stay there. We did not even know that there was a dog in that house.

Security informed us that there is a dog in that house that is being abused and some one called the SPCA to inspect the case.
So well for inspection, the SPCA did not even enter the house or saw the poor dog.

Well this morning I was hanging laundry very early when I heard the dog crying and I could hear how the dog was being beaten severely, the poor animal was in a little bundel in the corner next to the white gate. The next moment the dog got a change to run out of sight, and the man ran after him.

I am ALSO reporting an animal cruelty now, just maybe you will do more than standing outside the house, friendly talking with the owner without even seeing the poor dog.

Greetings
