Comments:	Upon arrival I met with Iman O'Brien. She let me onto the property and showed me her cat. She admitted that the cat does roam outside, however it always has access to the house as there's always someone home. I observed the cat, it is in fair condition, no wounds or parasites observed on it. It has access to adequate shelter, water and a clean living environment. Iman said that they are booking for a sterilisation today. I educated her that she needs to do everything to keep her cat inside to prevent it being bullied by other cats outside and get hurt. No further action required.
