On my arrival, I found no one at the property, while I was standing from the main gate, I have observed two dogs, both dogs were roaming freely inside the property.

I have noticed that the German Shepherd dog has been shaved on his front right leg. According to the owner who arrived while I was outside the dog was sterilized by Cape of Good Hope SPCA on Friday the 06th of December 2024.

The second dog , was also seen with the growth hanging on the leg, the owner is still waiting on Junaid Hussain, from Cape Guardi Angels to fetch the dog, he promised to fetch the dog during the week.

The living environment was clean, I have noticed that the hazardous materials were removed from the property and the ones that were left were packed nicely on the side of the fence.

There was drinkable water,

Follow up again will be conducted next week Tuesday on the dog with a growth
