Subject: Re: CoGH SPCA :18 Glennifer street Brooklyn

Good day.

I would like to bring to your attention and ask you to please send an inspector back to 18 Glennifer Street in Brooklyn.

This lady now has 2 rabbits on her property which is not suitable for them.
The back yard has a nutec built therefore there is very minimal space which is only concrete. The front is also a small space with a gate.

On your previous inspection the inspector found a very depressed African Gray parrot which she rehomed before they went back on the date given to her.

Her son lives at the back in the nutec with his cat which he looks after and feeds.

His mother who lives in the house has cats too but she hardly has food for them therefore her son is burdened with the cost of having to feed her cats when they are starving or they go scavenging. There is one old black cat with a little white who is not in a healthy condition at all.

Please send an inspector as soon as possible.

Thank you.
