The grey one is 13 years old, skin and bones. It was very cold last night. The verandah is in full sun for most of the day. They don't have any other shelter. I'm not sure if they have food and water. I contacted the owner who is not home, and she said that she will find someone to assist, but so far nothing has happened. They will probably sleep outside again tonight. And Stoffie barks the whole night. I'm very worried about especially the smaller ones. The bigger ones are used to being outside all the time.
