Comments:	I spoke to the complainant, she advised that the incident happened on Sunday and that the only injuries seen on the dog was two wounds on the dogs' face. She also advised that she asked the owner of the dog to take the dog to the vet and the owner allegedly said that he had. I asked her to please try and see the dog tonight and if the injuries are severe, she must call us to respond immediately. I spoke to Emma and she agreed that we may send someone to check tomorrow.
