General Report Comments: Upon arrival at first house no.22 Shukoor Hoosain way Pelican Park doing pro- active door to door inspections accompanied by Inspector Bryan Arendse I met Elenorah Viljoen (ID: 5902100132085) Cell: 0719481665 owner of animals on property who gave us access onto property. I observed two dogs Grace a x-breed tan and white (sterilised) female 2years old and Russel a x-breed black and white male 5months old on the property both of who appeared to be in fair condition and alert with body scores of 3/5. They have access to adequate water, shelter and a clean living environment. Deworming and fipronil for ticks was given to the Animals. Owner is interested in sterilization for the male dog so it will be followed up with in the new year as sterilization for the year has closed.

I then went to the second house no. 24 Shukoor Hoosain way, Pelican Park where I met Nadia Fiellies (ID: 8104250207083) cell numbers: 0735115648; 0822091413 owner of the animals on the property who gave us access onto property. I then observed two dogs Snoopy a x-breed white and black Male 4years and Amber a x-breed white, tan and black female 2months on the property both of who appears to be in fair condition and alert with body scores of 2.5-3/5. They have access to adequate water and a clean living environment. The puppy sleeps inside the house, but the big dog's kennel had plastic bottles inside, which I made the owner remove immediately as we educated them that it must stay clear to ensure the dog can access it properly. Deworming and fipronil for ticks was given for the animals. Owner is interested in sterilization, which will be sorted in the new year as sterilization has now closed for the year.

I then went to the fourth house no. 30 Shukoor Hoosain way, Pelican Park where I met Mariam Heuvel (ID: 6410130132082) cell number: 0644565279 owner of the animal on the property who gave us access onto property. I then observed the dog Meisie a rottweiler x douberman black and tan (sterilised) female 4years who was place on the back side of the property as the dog is highly aggressive (protective) of her owner. She appears to be in fair condition and alert with a body score of 3/5. She has access to adequate water, shelter and a clean living environment. I offered Deworming and fipronil for ticks, but owner told me that it is not necessary as they do keep up to date with all of that.
