General Report Comments: Upon my arrival, i met with Lindsay. There are 12 dogs on the property. They had access to water and a clean living environment. They have access into the house and sleep inside the house which provides them adequate shelter. The operation that she spoke about was a sterilization. She showed me the application to the City to have this amount of dogs in the property. I explained to her that she must also apply for a breeding permit by the city even though she is registered by Kusa to breed and she said that she didn't know but will do the application. There is no evidence of abuse and all the dogs appeared in a good condition.
