General Report Comments: I was accompanied by members from law enforcement. Upon our arrival, we met with the security guard who told us that the onwer is not there so he can't give us access and he can't go to the back of the property where the dog is kept.

We then went next door by number 14 who allowed as to check from their property. I observed the dog at the back of the property. The dog had access to water and adequate shelter. The area where the dog is kept is big enough to express natural behavior but the living environment was dirty with old faeces. The dog appeared in a fair condition.

I phoned and spoke to supervisor, inspector Rudi who said that he will discuss the case with Chief Inspector Jaco
