General Report Comments: Upon arrival I met owner who gave me access access property. I observed that both dog's are still tied up to 1meter chains. They do not have any access to shelter as the owner broken down the previous one and told me he is busy building a new one. The dogs appears to be in fair condition and alert with body scores of 2.5-3/5. They have access to adequate water and a clean living environment.

I then issued a NTC for the owner: Place your dogs Bliksem and Vullis on adequate running chains as shown on given pamphlet.
