General Report Comments: Upon arrival I met caregiver who gave me access onto property. I shared received concerns with her and she told me that she is the family friend who has been coming to feed both cat and dog twice daily and let the dog out to do his business, but that if he needs to go he also has a space in the house. As I first came to property windows were also open which means both animals have adequate ventilation. The house did not smell of urine or cleaning products to say it was just cleaned out.
