General Report Comments: Upon inspection, i hooted and called out but got no response. I observed 2 adult dogs and 1 dead puppy on the property. The dogs were free roaming with access to water, food, a clean living environment and adequate shelter. The 2 adult dogs appeared in a fair condition. I also heard more puppies on the property but couldn't see them. Im also not able to go onto the property(jump over the fence) to remove the carcass as the property is enclosed. I then spoke to the neighbor at number 32828 named Sipho Masongololo who told me that the onwer of the dogs are in Eastern Cape but there is someone who come every day to check on the dogs and that this person is currently at work as he is a security guard who work till 18:00.

I issued a warning to contact the SPCA within 12 hours as the dogs are suspected to be abandoned, which Sipho accepted and said that he will give it to the care taker of the dogs.
