General Report Comments: Upon arrival I met owner who gave me access onto property as I shared received concerns. She told me that she had tried everything, but that the dog still always has ticks. I observed the dog in question who appears to be covered in ticks. I observed a cat who appears to be in fair condition. Owner told me she wants to surrender the dog. Admission no. A38566. No donation given. Owner is interested in sterilization for the cat.

I then issued a NTC for the owner: In future when being the owner of an animal, when that animal is in need of adequate external parasite treatment ensure to provide it without any delay.
