

VETERINARY REPORT

To whom it may concern

On Friday, February 9th 2024 at approximately 13h10 SPCA Inspector Lindo presented me with an abandoned dog confiscated from 21 Barnford Walk, Athlone.

ANIMAL DETAILS

Species: Canine
Breed: Medium mixed breed dog
Sex: Male, intact
Age: +- 1.5 years
Tattoo/Microchip/Other: Nil
Name: Tyson
Description: White and light brown
Case Number: A29503

EXAMINATION FINDINGS

- **Description:** Tyson had an inflamed abrasive wound along his ventral neck, we have been applying topical treatment to the wound. There were no abnormalities detected on blood smear. Tyson is bright, alert and responsive. He has a good appetite and his body condition score was a 4/9 on the Purina Body Condition System.
- **Cause:** From the location and type of injury, the likely cause is due to prolonged constriction and friction by a choke collar.
- **Prognosis** – Very good
- **Recommendation:** Tyson does not need any additional treatments. This animal has the potential to thrive if given the opportunity.

COMMENTS

Dog displayed a good temperament and is very friendly.

In my opinion this animal was left to suffer unnecessarily.

Yours sincerely

Dr Deepali Narotam (BVSc)
Veterinarian
